Quiver

Your Claude Code skills,
finally in one place.

Free | Open Source | MIT Licensed

Skills scattered everywhere?

Local skills buried in folders

~/.claude/skills/ with no overview

Plugins in nested directories

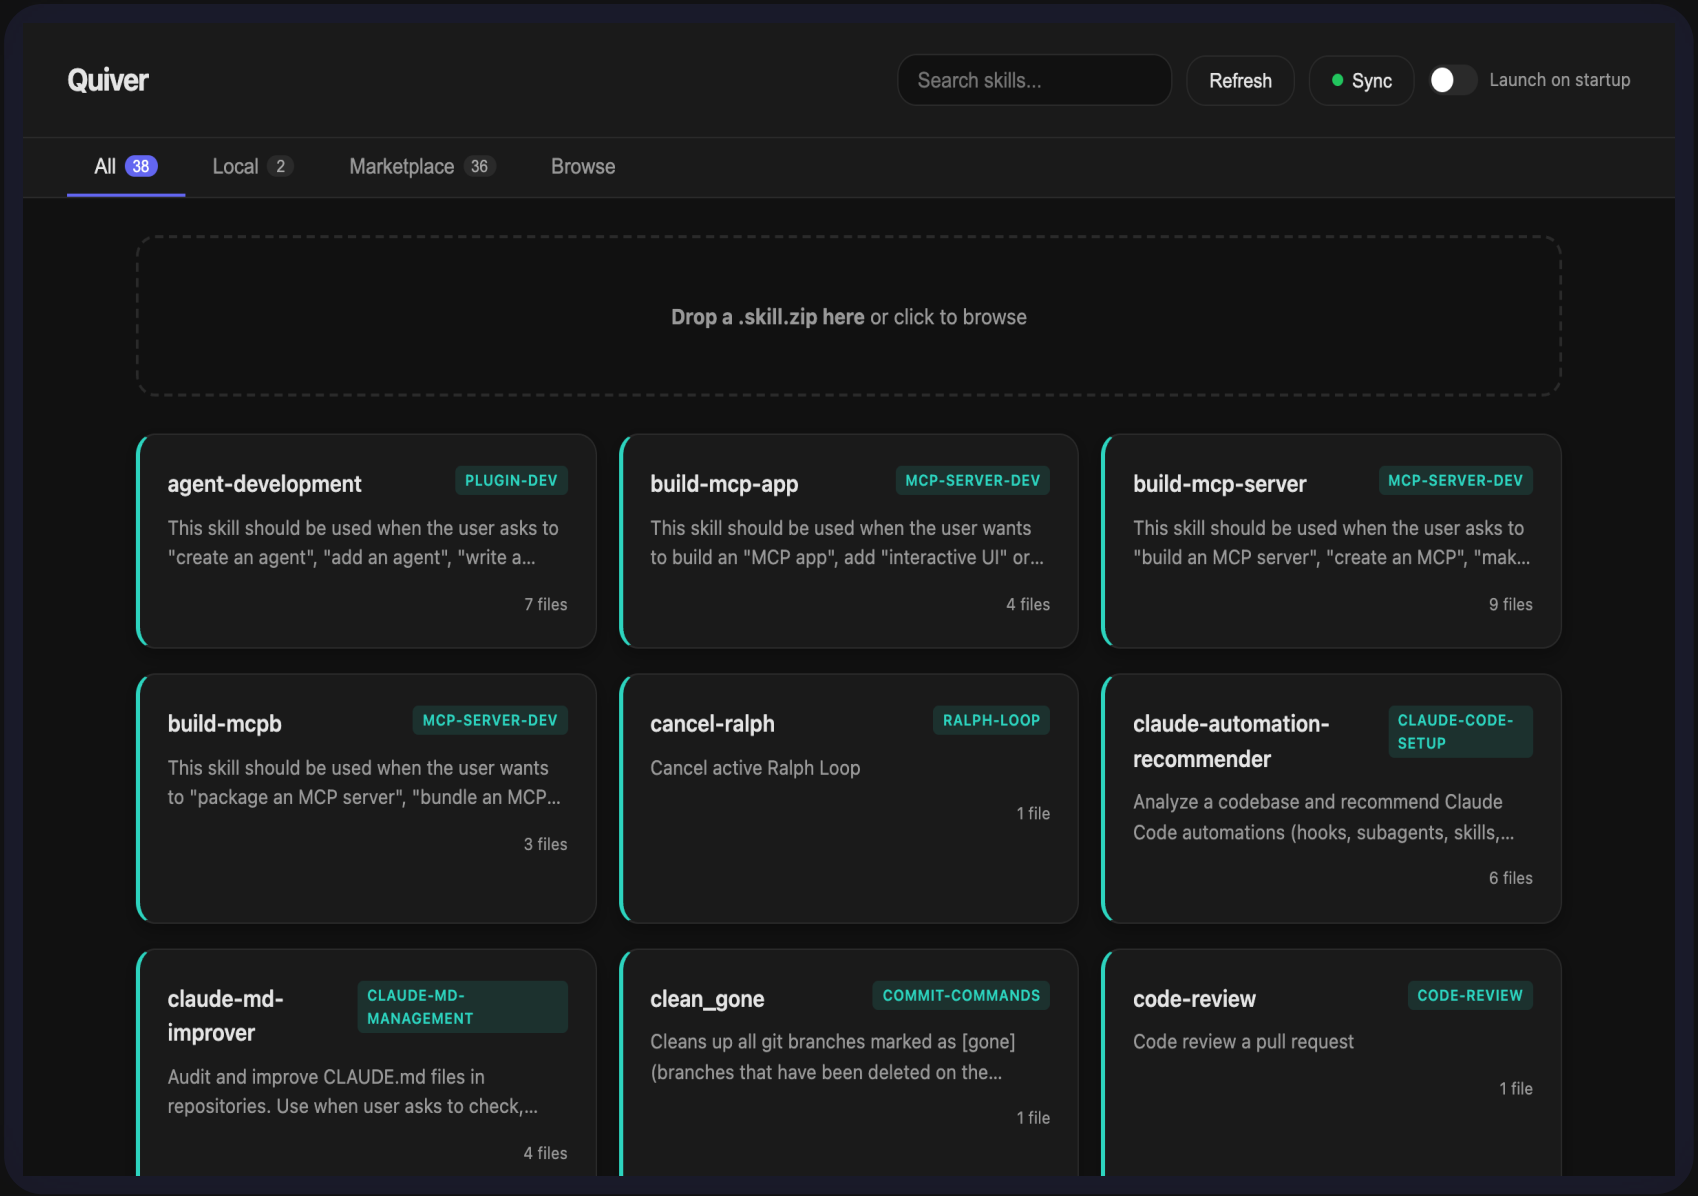
Deep paths, no search, hard to find

Terminal only, no GUI

No visual way to browse or manage

One searchable web UI

All your skills and plugins in one grid



Everything you need

- Browse & install plugins with one click
- Edit skills directly in the browser
- Sync across machines with Git
- Auto-checks for plugin updates

Up and running in 60 seconds

1

Download the app

macOS / Linux / Windows - 1.8MB

2

Install via npm

```
npm i -g quiver-skill-manager
```

3

Install from Claude

Upload a skill, say "Launch Quiver"

Q

Free. Open source.
